

How to use 1-Click Actions Batch Resizing Actions

From the Photoshop menu select File-Automate-Batch to open the Batch Setting Dialog.

In the dialog select the action set and name of the action you want to run in batch mode. The 1-click resizers are in the “1-Click Batch Resizers” set.

Select a folder of images you want to resize.

Tick the “Supress Color Profile Warnings” check-box

In the Destination box select “Folder” followed by “Choose” to select a folder to store the resized images.

Make sure that the “Override Action ‘Save As’ Commands” box is checked.

Click OK to run the batch actions.
